Presents
A City In Trouble..

CRIME CITY

CRIME CITY: riddled with organized crime and corruption, it has become the hell on earth for its more than 5 million residents. Burglary, kidnapping, murder and drug trafficking have all cast their dark shadow upon the once lively and beautiful city. Now Tony Gibson and Raymond Brody are determined to rid Grim City of its high level filth, crush out crime, and bring back law and order.

Crime City is a one or two player horizontal video game, started independently and played via two complete sets of controls. Each set of controls includes a joystick and two buttons. The player uses the joystick to move his character and the two buttons for attacking and special maneuvers.

The goal or object of the game is to find the gang leaders and arrest them. Carrying out this task, the player makes his way on foot through some of the roughest neighborhoods in Crime City, shooting and fighting criminals. There are a total of six stages, which are segmented into different scenes. Each stage of the game has a specific criminal activity that must be stopped before proceeding to the next. Such crimes as kidnapping, robbery, drug dealing and attempted murder are featured in the various stages to challenge the player. The player picks up special weapons along the way as he disarms the criminals. And drugs, when seized, award special bonus points.

As the player receives damage, his life gauge is partially reduced. The game ends when the player's life gauge is completely depleted.

However, with Taito's Continue Play feature the player can stay in the action!

Illustrated below are some of the game's maneuvers including the somersault attack, an important element in the game.
